Awarded Items Korea Forest Service Competition for Export Promising Wood Products

The “Contest to Identify Producers of Forest Goods with Export Potential,” begun in 2016 and hosted by the Korea Forest Service (KFS) and organized by the Korea Forestry Promotion Institute, celebrates its seventh year this year. This year's contest was designed to identify excellent South Korean producers of producing wood products and assist with their advancement overseas. Candidates were first selected through document screening, and then were visited by a jury of specialists and people from the KFS and other relevant agencies to select and award the one finalists.

A unique and convenient wine bottle net carrier Bottle Net

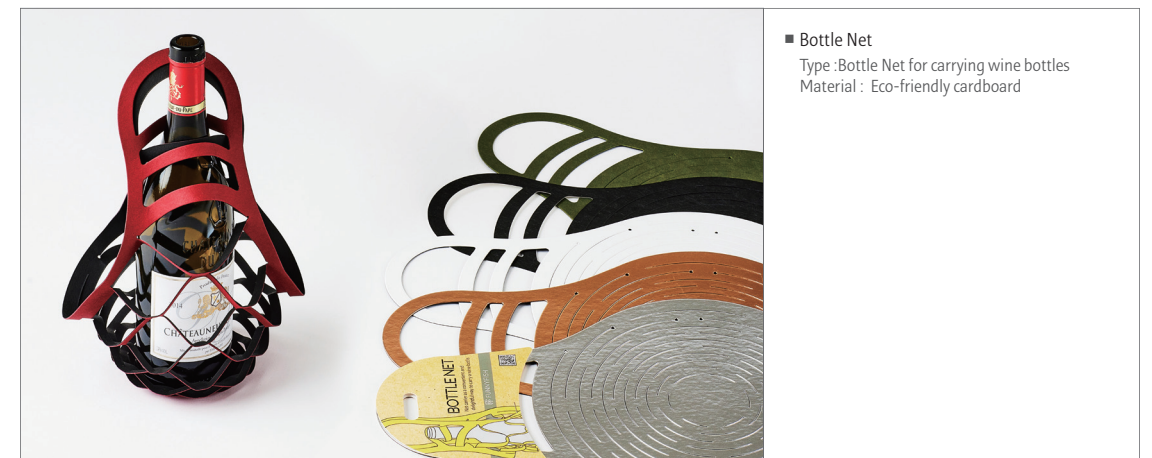

When you want to gift someone with a bottle of wine or simply bring it somewhere, it's often not a simple task to find the right kind of bag that will protect and show off the wine you've purchased. Bottle Net is your best choice. Made from reusable, recyclable cardboard that does not tear even when wet, Bottle Net is eco-friendly. Registration as a utility model in Korea and Japan patent to its technical quality. Stand a bottle upright on the flat cardboard sheet and simply lift up the edges of the sheet to see it become a unique and convenient wine bottle net carrier. This fun visual experience makes it popular at wineries and select design product shops overseas.
